The School Career Development contact person is:

Vocational Education in Schools Directorate 2006

Career Development for Students in NSW Public Schools
Career Development in NSW Public Schools…

…support students to talk about their career ideas, explore career options, develop career goals, and make career and transition plans.

career development is the process of managing life, learning and work over the lifespan” (Australian Blueprint for Career Development…p14)

Career Planning - The careers adviser ensures that students are individually supported to make their own career decisions by assisting them to identify, own and manage their career ideas.

Career Education - A planned program of learning experiences is offered by the school to assist students to learn about the workplace and acquire skills that will improve their ability to become productive citizens.

Student Pathways Survey - An online survey that provides personalised feedback to students to encourage them to take responsibility for developing and actioning their career plans.

Career and Transition - Experiences provided to students through the School to Work Program that build skills and confidence to enable them to make successful transitions through and from school.

Career Resources and Information - Career information is available through a range of media and can include: excursions, guest speakers, newsletters, websites, email alerts, handbooks, videos, CDs, DVDs.

Work Experience / Workplace Learning - Workplace experiences provide students with knowledge and skills that support their career planning and enable them to be successful in the workplace.

Vocational & Enterprise Learning - Learning opportunities that are real and relevant to students are provided both within school and the wider community, including vocational education and training courses. These build students employment related skills and enterprising abilities.

Careers Advisory Services - An email, phone and in-person service operating after the HSC results are released. It provides students with access to careers advisers who offer individual guidance in relevant work, education and training options.
