Training is delivered by TAFE NSW

This School-Based Traineeship provides trainees with the knowledge and skills required to work in the automotive service and repair industry, and will suit students with a strong interest in the automotive industry.

On completion of this Traineeship you will be able to:
- use workplace tools and equipment to inspect and service braking systems
- service final drive drivelines
- inspect and service engines
- service final drive assemblies

Outcome
- Certificate II in Automotive Vehicle Servicing (Light Vehicle) qualification AUR20505
- Articulation into the Apprenticeship for Mechanical Technology (Light Vehicle)
- A career path into the automotive industry
- Advanced standing into Certificate III Mechanical Technology (Light Vehicle) course

Course delivery
Both on the job and off the job and can be delivered face-to-face, flexibly or mixed mode

Commitment + Off the Job Delivery
You will be required to undertake a minimum of 100 days in paid employment over the period of the School-Based Traineeship. Work can be undertaken during school time, after school and during school holidays.

How will students be assessed?
Both on the job and off the job through written tests, project work & practical exercises.

Unit value
Total of 6 units over two years towards your HSC

Eligible for UAI?
No

Students cannot study both this course and Industrial Technology – Automotive Industries.
